

MX CONNECT

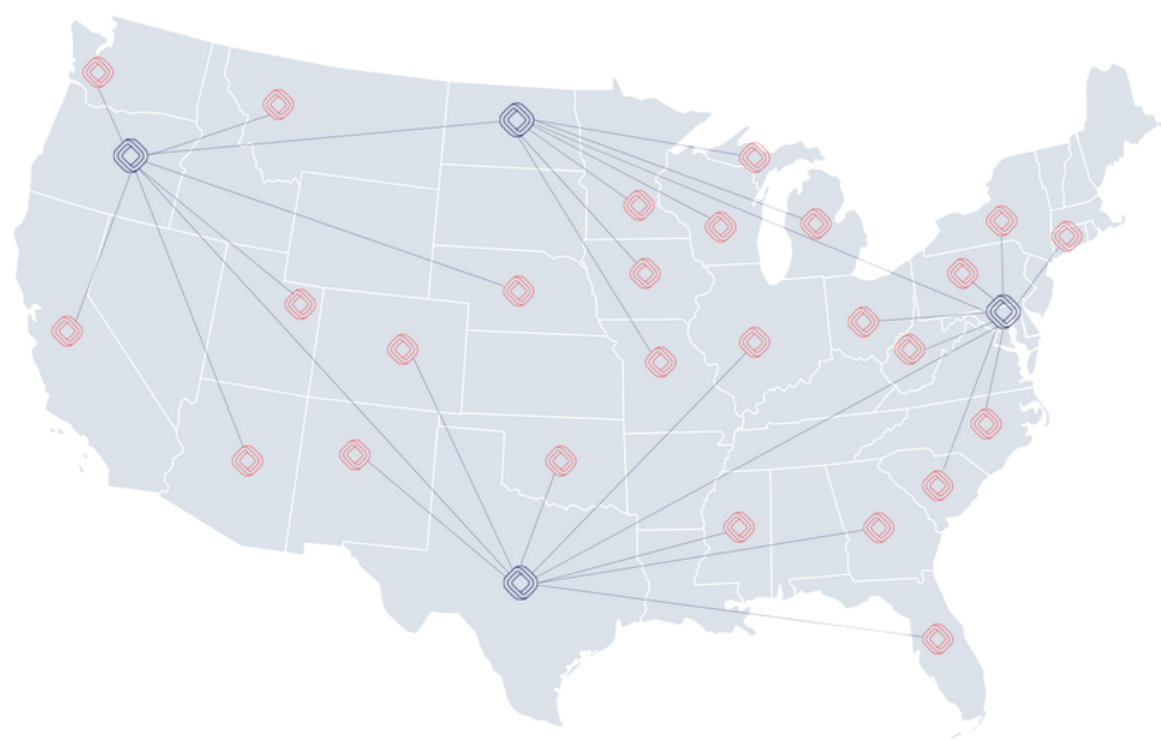

DEPLOYMENT

OVERVIEW

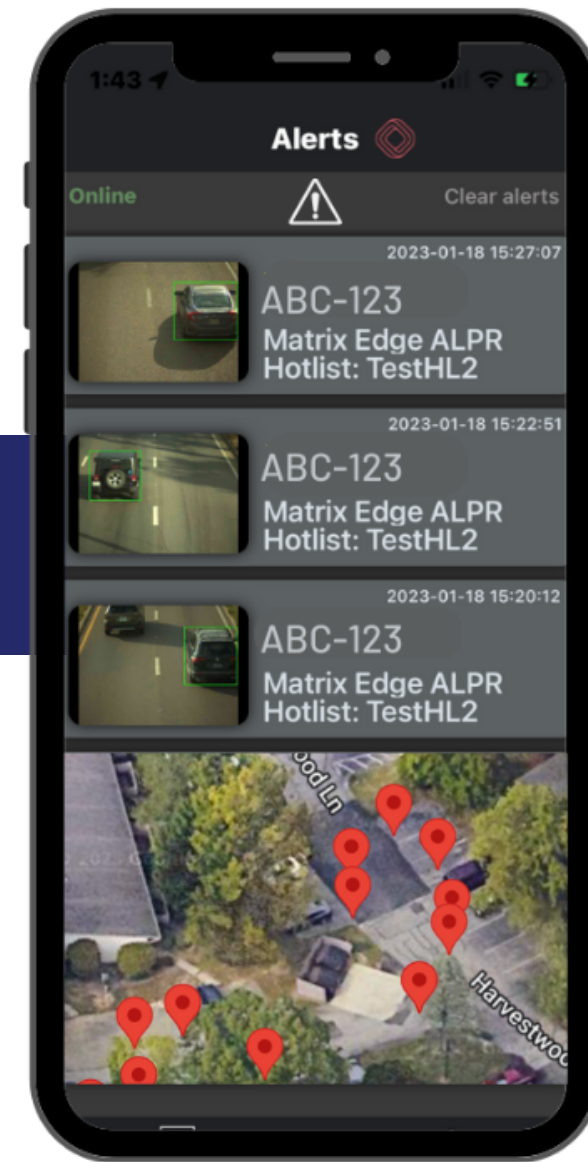

MX Connect is an iOS mobile app that revolutionizes LPR efficiencies for law enforcement with its lightning-fast speed notifications, user-friendly interface, and laptop-free convenience. It seamlessly connects your entire team, requires minimal training, and provides location-based alerts for unparalleled productivity. MX Connect iOS app compliments your LPR program by offering all users access to LPR alerts when and where they need them.

WHY MX CONNECT?

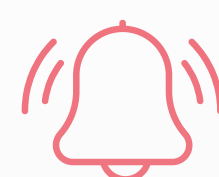

DATA SECURITY

LPR data is stored and is accessible via a secured and encrypted cloud environment.

HOTLIST ACCESS

Easily access agency or case-centric hotlists. Ensure wanted vehicles are always on your radar.

HIT ALERTING

Delivers alerts in less than 10 seconds ensuring that agency officials can quickly alert officers in the field or a RTCC.

GEO-BASED ALERTING

Geo-based alert management allows users to subscribe to notifications based on their physical proximity to the LPR notification.
